University of Florida
College of Public Health and Health Professions
PHC 6600: Foundations of Public Health (3 credits)
Semester: Spring 2026
Delivery Format: Online
Class Meeting Information: Canvas

Instructor Name: Daniel Acosta, PhD
Email Address: daniel.acosta@ufl.edu
Office Hours: Tuesday 1230PM-2:00PM In person or via Zoom.
Office Location: 2197 Mowry Road, Gainesville, FL 32611
Preferred Course Communications: UF Email (daniel.acosta@ufl.edu)

Pre-Requisites: None

I. PURPOSE & OUTCOME

Course Overview

This foundational course introduces public health and healthcare within the US and globally, emphasizing the ecological perspective and the interconnectedness of population and individual health. Course topics include public health history and impact, the role of ethics and evidence, and the importance of health equity and human rights.

Relation to Program Outcomes

This foundational and introductory public health course emphasizes and assesses student learning for all 12 foundational knowledge (FK) concepts as outlined by the Council on Public Health Education (CEPH, 2021). Additionally, this courses introduces several key public health competencies (Core) outlined by CEPH (2021).

Course Objectives

1. Explain public health history, philosophy, and values. (FK1)
2. Identify the core functions of public health and the 10 Essential Services. (FK2)
3. Explain the role of quantitative and qualitative methods and sciences in describing and assessing a population's health. (FK3)
4. List major causes and trends of morbidity and mortality in the U.S. or other community relevant to the school or program. (FK4)
5. Discuss the science of primary, secondary, and tertiary prevention in population health, including health promotion, screening, etc. (FK5)
6. Explain the critical importance of evidence in advancing public health knowledge. (FK6)
7. Explain effects of environmental factors on a population's health. (FK7)
8. Explain biological and genetic factors that affect a population's health. (FK8)
9. Explain behavioral and psychological factors that affect a population's health. (FK9)
10. Explain the social, political, and economic drivers of health and how they contribute to population health and health equity. (FK10)
11. Explain how globalization affects global burdens of disease. (FK11)
12. Explain an ecological perspective on the connections among human health, animal health, and the ecosystem (e.g., OneHealth). (FK12)

13. Examine the role of positionality in public health at the organizational, community and societal levels. (Introduce Core 6)
14. Compare the organization, structure and function of health care and public health in the US and globally, including strengths and challenges. (Core 5)
15. Discuss multiple dimensions of the policy-making process, including the roles of ethics and evidence. (Core 12)
16. Apply concepts of cultural humility to function as an effective member of an inter-professional team. (Associated with Core 21)
17. Summarize the literature of a specified health topic within a specified priority population.
18. Interpret public health findings in research and practice. (Introduce Core 4)

Alignment of Course Objectives, Content, and Assessment

Objective	Instruction/Module	Assessment Method(s)
1. Explain public health history, philosophy, and values.	1, 2, 4	• Exam 1 • Evidence-Based Reflection (EBR) 1
2. Identify the core functions of public health and the 10 Essential Services.	1,3 (and emphasized throughout)	• M3 Readiness Quiz (RQ) • Exam 1
3. Explain the role of quantitative and qualitative methods and sciences in describing and assessing a population's health.	4, 5, 6, 7, 10, 15	• M5 RQ • EBR 2 • Exam 1 & 2
4. List major causes and trends of morbidity and mortality in the U.S. or other community relevant to the school or program.	1, 2, 4, 5, 6, 7, 10	• M1, M3, M6, M7, M9 RQ • Literature review • Exam 1
5. Discuss the science of primary, secondary, and tertiary prevention in population health, including health promotion, screening, etc.	1, 7	• M7 RQ • EBR 3 • Exam 1
6. Explain the critical importance of evidence in advancing public health knowledge.	1, 2, 3, 4, 5, 6, 7, 9, 10, 14 (emphasis throughout)	• Exam 1 and/or 2 • EBR 5
7. Explain effects of environmental factors on a population's health.	1, 2, 6, 9, 10, 14	• M6, M7 & M9 RQ • Literature Review • Exam 1 • Exam 2
8. Explain biological and genetic factors that affect a population's health.	1, 4, 6, 7	• M7 RQ • Literature Review • Exam 1
9. Explain behavioral and psychological factors that affect a population's health.	1, 2, 3, 6, 7, 9, 15	• M2, M6, & M9 RQ • Literature Review • Exam 1

10. Explain the social, political, and economic drivers of health and how they contribute to population health and health equity.	1, 2, 3, 6, 9, 10, 11, 12, 13, 14, 15	• M2, M3, M6, M7, M9, M11, M12, M13, M14, & M15 RQ • Literature review
11. Explain how globalization affects global burdens of disease	2, 3, 7, 9, 10, 15	• M9 & M10 RQ • Exam 2
12. Explain an ecological perspective on the connections among human health, animal health, and the ecosystem (e.g., OneHealth).	1, 2, 9	• M9 RQ • EBR 4 • Exam 2
13. Examine the role of positionality in public health at the organizational, community and societal levels.	Week 1, 2, 3, 6, 14, 15	• M2 & M6 RQ • Exam 1
14. Compare the organization, structure and function of health care and public health in the US and globally, including strengths and challenges.	Week 11 & 12	• Comparative Case Study • Exam 2
15. Discuss multiple dimensions of the policy-making process, including the roles of ethics and evidence.	Week 13 & 14	• M14 readiness quizzes • Exam 2
16. Apply concepts of cultural humility to function as an effective member of an inter-professional team.	Theme throughout	• In-class Assignment • Participation in Comparative Case Study
17. Summarize the literature of a specific health topic	Theme throughout	• Literature Review
18. Interpret public health findings in research and practice.	- Theme throughout	• Public Health & Me Discussion • Multiple in-class activities • EBR 5

What is expected of you?

You are expected to actively engage in the course throughout the semester. This course relies heavily on participation in the online discussion boards with instructor and classmates; your participation fosters a rich course experience for you and your peers. It is the sole responsibility of the student in online courses to keep up with course requirements. You are expected to do preparatory work (including reading and/or watching videos linked in Canvas) each week prior to participating in online discussion boards, which will be spent primarily on critical discussion and application of course content to real-world public health problems. Throughout online course discussions, you will be asked to initiate ideas, share relevant experiences, reflect on what your classmates post, and critique and extend the course readings and lectures. Participating actively requires that you be open to discussing your beliefs and how you define yourself while also opening yourself to other points of view and considering them critically. Rich discussion frequently entails disagreements not only about issues, but also about basic values. As a participant in this class, you are expected to be respectful toward others and their views, even if they are radically opposed to your own beliefs.

II. DESCRIPTION OF COURSE CONTENT, FORMAT, & ACCESS

Topical Outline/Course Schedule

Week/ Dates	Module Topic(s)	Module Materials	Assignments Due
1 Jan 12-16	**Course Overview** **What is Public Health?** -approach -individual v. population -levels of prevention -determinants of PH -ecological models	• Course Intro & Start Here page • Goldsteen text: Chapter 1, Introduction & Overview. • Kruger, Ch 1, Public Health: Science, Politics, and Prevention • CDC. (2019). 10 Essential Public Health Services • Owens-Young, J. (2018, October 10). Being born in the wrong ZIP code can shorten your life. The Conversation. • Shmerling, R.H. (2022, October 2022). Why life expectancy in the US is falling - COVID-19 and drug overdoses are the biggest contributors. Harvard Health Publishing.	Syllabus Quiz Discussion: Public Health & Me
2 Jan 19-23	**Public Health History** -history and evolution of PH in the US (origins to current emergences) -classification of health problems -international classification of disease -successes and set-backs of PH -historical roots related to social justice and health inequity	• CDC. Leading causes of death and injury. • Tulchinsky (2018), Ch 1, James Lind and Scurvy. In *Case Studies in Public Health*	M2 RQ
3 Jan 26-30	**Organization & Structure of Public Health & Healthcare in the US and Globally**	• Kruger, Ch 4, Governmental Influence & Responsibilities • Kruger, Ch 16, The US Medical System as a Public Health Problem • Country Profiles: International Health Care System Profiles. *The Commonwealth Fund*	M3RQ Discussion B1
4 Feb 2-6	**The Epidemiology of PH** -history of epidemiology -epidemiologic investigation -descriptive epidemiology -measures of disease frequency --rate calculation --causation v. correlation	• Kruger, Ch 9, The Science & Principles of Epidemiology • NEW: Tulchinsky (2018), Ch 5, John Snow, Cholera, the Broad Street Pump; Waterborne Diseases Then and Now. In *Case Studies in Public Health*	EBR1 M4 RQ Case Study

Week/ Dates	Module Topic(s)	Module Materials	Assignments Due
5 Feb 9-13	**Measurement & Evidence-Based Public Health** -quantitative v. qualitative data collection methods -surveillance -data sources -searching and summarizing the literature -using data to prioritize and inform -working with communities	• Kruger, Ch 5, PH Research Methods • Kruger, Ch 6, The Roles of Statistics and Data in PH • Brownson et al. (2018). Building capacity for evidence-based public health: Reconciling the pulls of practice and push of research. *Annual Review of Public Health, 39*: 27-53. DOI: 10.1146/annurev-publhealth-040617-014746	M5 RQ Discussion B2
6 Feb 16-20	**Drivers of Health** - Health equity -interaction of environmental, biological, behavioral, and psychological factors -sources of social and behavioral data	• Krueger, Ch 2, The Drivers of Health • Krueger, Ch 11, Behavioral Contributors to Disease • Heisler et al. (2018). The role of US health plans in identifying and addressing social determinants of health: Rationale and recommendations. *Popul Health Manag*. doi: 10.1089/pop.2018.0173.	M6 RQ
7 Feb 23-27	**Infectious Diseases** -Infectious disease -levels of prevention & disease -sources of disease data	• Kruger, Ch 7, Infectious disease • National Notifiable Diseases Surveillance System • Tulchinsky (2018), Ch 4, Semmelweis, Crede, Lister, and Nightingale: Pioneers in Controlling Hospital Infections. In Case Studies in Public Health • Tulchinsky (2018), Ch 6, Pasteur on microbes and infectious diseases. In Case Studies in Public Health	M7 RQ Discussion B3
8 Mar 2-6	**Exam 1**		
9 Mar 9-13	**Chronic Diseases** -genetic & chronic diseases -levels of prevention & disease -sources of disease data	• Kruger, Ch 10, Genetic & Chronic Diseases	M9 RQ Discussion B4
10 Mar 16-20	**Spring Break**		

Week/ Dates	Module Topic(s)	Module Materials	Assignments Due
11 Mar 23-27	**Global Concepts** -Key terms -Climate change -Maternal & child health (environmental perspective) **Introduction to OneHealth** -Key terms -History -OneHealth approach & framework -The role of the environment	• Kruger, Ch 14, Climate Change: The most important PH challenge of the 21st century	Discussion B5 M10 RQ
11 Mar 30 – Apr 3	**Environmental Health** -key terms -role of the government -types and identification of hazards -environmental policies-sources of data	• Kruger, Ch13, A Clean Environment: The basis of PH	M11 RQ **Literature Review**
12 Apr 6-10	**Ethical Considerations in PH** -philosophical paradigms & perspectives -code of ethics -cultural humility -IRB and its origins	• USDHHS. The Belmont Report • Public Health Code of Ethics • NEW: Tulchinsky (2018), Ch 13, Ethical Issues in Public Health. In *Case Studies in Public Health*	M12 RQ EBR 2
13 Apr 13-17	**US policy, healthcare, & public health** -policy making process -ethics in policy making -politicization of health	• Kruger, Ch 15, Regulations that Impact Health • Douglas et al. (2019). Applying a health equity lens to evaluate and inform policy. *Ethn Dis*, *29*(S2):329-342. Doi: 10.18865/ed.29.S2.329.	M13 RQ
15 Apr 20-22	The Future of PH Clinical-community linkages	• Kruger, Ch 8, COVID-19: Experiencing and learning from a global pandemic • Kruger, Ch 17, The future of PH • AHRQ. Clinical-Community Linkages • Daniels et al. (2024). Outcome evaluation of a public health intervention on CVD prevention among women aged 40-64 with low incomes in Nebraska. *JPHMP*. • Baker et al. (2022). Infectious disease in an era of global change. *Nature reviews. Microbiology, 20*(4): 193-205.	M14 RQ EBR 3
FE	**Exam 2**		Exam 2 Due April 30th.

Course Materials & Technology
This course will use the Canvas CMS. If you experience technical difficulties, please contact the UF Help Desk (learning-support@ufl.edu; 352-392-HELP – select option 2).

UF Internet (eduroam) is available at thousands of locations worldwide!

UF students can access eduroam (highspeed WiFi) for free with their GatorLink log-in credentials. The eduroam network is fast and secure and has more than 10,000 wi-fi hotspots in 106 countries and territories worldwide. Many of these locations are in open spaces and/or large communal rooms, so you can get online while physically distancing and following CDC guidelines in an air-conditioned space. Access is available in rural areas, too! Here's a link to all the eduroam sites.

Required Readings:
Kruger, J., Moralez, A., & Siqueria, C.E. (2026). *Schneider's introduction to public health (7th edition).* Jones & Bartlett Learning.

Tulchinsky, T.H. (2018). *Case Studies in Public Health.* Elsevier Science & Technology. Available for free through UF Library

Other readings (as assigned in the content outline) are provided on Canvas.

Recommended**:*

1. American Psychological Association. (2019). *The publication manual of the American Psychological Association (7th ed.). Author.*

   ***When writing papers in this program and in this profession, you are expected to write and format in APA style. I will provide you with resources to help with this; however, I highly recommend you purchase this book (or the pocket reference).*

Additional Academic Resources (see Section V for additional student services)

- Career Connections Center: Reitz Union 1300, 352-392-1601. Career assistance and counseling services.
- Library Support: Receive assistance in using the libraries or finding resources.
- Teaching Center: General study skills and tutoring
  1317 Turlington Hall, 352-392-2010; or, to make a tutoring appointment: 352-392-6420.
- Writing Studio*:* Help with brainstorming, formatting, and writing papers. 2215 Turlington Hall, 352-846-1138.
- Student Complaints On-Campus: Visit the Student Honor Code & Student Conduct Code page for more info.
  On-Line Students Complaints: View the Distance Learning Student Complaint Process.

III. Academic Requirements & Grading

ASSIGNMENTS	Points	%
Syllabus Quiz	0	0%
Peer Introduction Discussion Post	10	1%
Module Activities & Discussions	300	30%
Readiness Quizzes (13 at 12 points each, drop 1 = 12)	180	18%
Exam 1	100	10%
Exam 2	100	10%
Literature Review Paper	250	25%
Case Study: Healthcare Delivery International Comparison	60	6%
Total	1000	100%

Grading Scale

Percent Earned	93-100	90-92	87-89	83-86	80-82	77-79	73-76	70-72	67-69	63-66	60-62	Below 60
Letter Grade	A	A-	B+	B	B-	C+	C	C-	D+	D	D-	E
Grade Points	4.0	3.67	3.33	3.0	2.67	2.33	2.0	1.67	1.33	1.0	.67	0

Please be aware grades of C- (or below) are not acceptable for graduate students. Graduate students' GPA must be at least 3.0 in all graduate courses (≥5000 level). A grade of C will count toward the graduate degree only there are sufficient credits in graduate courses been earned with a B+ or higher.

Information on current UF grading policies can be found at: https://catalog.ufl.edu/graduate/regulations/

Description of Graded Course Assignments

- **Syllabus Quiz:** This Canvas quiz is ungraded; however, you must pass with a 100% to move onto course content.
- **Peer Introduction – Canvas Discussion, "Public Health & Me" (10 points):** Students will post a brief introduction of themselves and what they foresee as one of the biggest public health challenges we will face in the next 5 years. (Facts must be used and cited to support your answer.) This assignment is due at the end of Week 1 and must be completed before moving onto Week 2 content. Your response to others is due by the start of Week 2. Check Canvas for details.
- **Module Activities & Discussions (300 points):** Students will complete several evidence-based reflection papers (EBR) and discussion posts throughout the semester. The EBR papers are assigned at the end of a class period and are due via Canvas within 5 days of assignment. You are encouraged the complete the paper as soon after class as possible (to ensure your thoughts are fresh). Papers must be 1.5 to 2 written pages double-spaced (1-inch margins, APA-approved font) and include at least two peer-reviewed resource as evidentiary support. **Papers will be graded based on comprehensiveness (answering all question prompts), professionalism of writing, clarity of expression, evidentiary support, and format.** For a rubric and specific requirements, please check Canvas. There are three evidence-based reflection papers valued at 50 points each.

  Your active and thoughtful participation in class activities and collaborative discussions is necessary for this course. Five modules will have a Canvas discussion component. You are required to complete each week's discussion post and reply to a minimum of two other posts on that week's board. Discussion posts should address most questions in that week's prompt (you can separate sections by question # or write all answers in a narrative form, just be clear to indicate that you've answered all questions), and you should end your post in a way that engages the class in discussion (e.g., ending with a question to the group that will generate interesting discussion about the topic and must demonstrate critical thinking related to the week's readings/content). Appropriate questions include those that 1) seek clarity on course material; 2) relate the course material to other public health issues/theories or discussions we've had; 3) provide the basis for further investigation that would build on the readings; 4) generate interesting course discussion/debate. Students can earn up to 30 points each week for discussion participation (5 total discussions), for a total of 150 points over the course of the semester.
- **Readiness Quizzes (180 points):** Eleven of the modules have a readiness quiz that covers all of the preparatory content from that module (i.e., the readings, lectures/videos, and other assigned supplemental materials). Each module quiz is due via Canvas 24-hours before the start of class. The quizzes are not formally proctored and thus can be considered open-

book; however, they are timed and you will not have time to look up every concept covered on the quiz. Therefore, you should complete your readings and review each module's lecture/video content *before* taking the quiz. The quiz will provide feedback based on your answers and you will have two opportunities to take each quiz. Quiz questions are randomly selected from a pool of potential items, so it is unlikely that you will get the exact same questions twice. There are 13 quizzes worth 15 points each; your lowest quiz grade will be dropped at the end of the semester.

- **Exams (200 points)**: There will be 2 exams. **Exams are closed book** and are a mix of multiple-choice and short essay questions. While exams focus on the course content covered since the previous exam, you are responsible for any course material presented earlier as well. **Each exam is worth 100 points, for a total of 200 points.**
- **Literature Review Paper (250 points):** Students will select a notable health issue and priority population (subject to approval) and will write a descriptive narrative literature review. The literature review will include 1) an epidemiological description of the health issue (from broad to narrow); 2) the environmental, behavioral, biological and genetic, and psychological factors of the health issue specific to the priority population; and 3) the social determinants that affect the health issue specific to the population. The paper must be 6 to 9 pages in length (not including the cover page or references) and formatted and written in APA style. The paper must be submitted via Canvas, where it will be evaluated by **Turnitin**, a service that provides feedback on originality of your text. You will see the results of this service immediately. I encourage you to submit your paper early so that you have time to revise your paper following any feedback from the Turnitin application. Please see Canvas for more details and the grading rubric.
- **Case Study: Public Health & Healthcare Delivery International Comparison (60 points):** Working together in small groups, students will identify specific strategies (and an evidence basis for each) from other (outside the US) healthcare systems to improve the healthcare systems and delivery in the US to be more equitable, affordable, and effective. Students must consider the political, economic, social and cultural differences across the systems. Details to be provided in Canvas.

IV. CLASS POLICIES

Assignment Policy: Be sure to review assignment descriptions in the course syllabus and in Canvas, and take note of any additional in-class guidance that is given for each assignment. Please note that important and helpful information about your assignments will be provided in class. Students are expected to do their best work and to turn in work on time. Some deadlines are self-imposed and will be determined by the specific assignment.

- Unless otherwise noted, assignments are due at 11:59pm on the date indicated. Please make efforts to turn assignments in early. **Make back-up copies of all your work**, as some assignments may not be returned and Canvas access may expire after the semester ends. All written work must be typed, unless otherwise indicated. Submitting the incorrect document will not be accepted as an excuse for late or missing work.
    - *Some assignments will not be accepted late. Others are subject to a 10% deduction in grade for every day it is late.* (Check assignment details in Canvas.)
    - I do recognize that personal circumstances arise (life happens) that may interfere with your ability to meet a deadline. If these unanticipated events do occur, please let me know as soon as possible. I will not be receptive to retrospective requests for extensions without a compelling and evidenced rationale.

Course Evaluations: I value your professional and respectful feedback on the quality of instruction in this course. Please complete the evaluation for this course via the Canvas GatorEvals tab or through https://ufl.bluera.com/ufl/. You will be notified when the evaluation period opens. UF provides guidance on how to give feedback in a professional and respectful

manner. You can also view public summaries of course and instructor evaluation results.

Inclusive Learning Environment: Public health and health professions are based on the belief in human dignity and on respect for the individual. As we share our personal beliefs inside or outside of the classroom, it is always with the understanding that we value and respect diversity of background, experience, and opinion, where every individual feels valued. We believe in, and promote, openness and tolerance of differences in ethnicity and culture, and we respect differing personal, spiritual, religious and political values. We further believe that celebrating such diversity enriches the quality of the educational experiences we provide our students and enhances our own personal and professional relationships. We embrace The University of Florida's Non-Discrimination Policy, which reads, "The University shall actively promote equal opportunity policies and practices conforming to laws against discrimination. The University is committed to non-discrimination with respect to race, creed, color, religion, age, disability, sex, sexual orientation, gender identity and expression, marital status, national origin, political opinions or affiliations, genetic information and veteran status as protected under the Vietnam Era Veterans' Readjustment Assistance Act." If you have questions or concerns about your rights and responsibilities for inclusive learning environment, please see your instructor or refer to the Office of Multicultural & Diversity Affairs website.

Make-up Policy: If a student fails to submit either a **quiz, exam,** or **assignment on-time**, they will be provided an opportunity to submit after the deadline provided they have an acceptable reason for missing the deadline. Decisions to allow students to make-up requirements after their deadline will be made by the course instructor after consulting the university-wide attendance policies specified in the UF Graduate Catalog.

Netiquette, Communication Courtesy: All members of the class are expected to follow rules of common courtesy in all email messages, threaded discussions and chats. I expect that students will show respect to their peers and instructor in all online communications. I will not tolerate improper language and disparaging comments; these actions will result in disciplinary action. Review this resource for information on the expected behavior of students when communicating with peers and instructors online.

Recording Within the Course: Students are allowed to record video or audio of class lectures. However, the purposes for which these recordings may be used are strictly controlled. The only allowable purposes are (1) for personal educational use, (2) in connection with a complaint to the university, or (3) as evidence in, or in preparation for, a criminal or civil proceeding. All other purposes are prohibited. Specifically, students may not publish recorded lectures without the written consent of the instructor.

A "class lecture" is an educational presentation intended to inform or teach enrolled students about a particular subject, including any instructor-led discussions that form part of the presentation, and delivered by any instructor hired or appointed by the University, or by a guest instructor, as part of a University of Florida course. A class lecture does not include lab sessions, student presentations, clinical presentations such as patient history, academic exercises involving solely student participation, assessments (quizzes, tests, exams), field trips, private conversations between students in the class or between a student and the faculty or lecturer during a class session.

Publication without permission of the instructor is prohibited. To "publish" means to share, transmit, circulate, distribute, or provide access to a recording, regardless of format or medium, to another person (or persons), including but not limited to another student within the same class section. Additionally, a recording, or transcript of a recording, is considered published if it is posted on or uploaded to, in whole or in part, any media platform, including but not limited to social media, book, magazine, newspaper, leaflet, or third-party note/tutoring services. A

student who publishes a recording without written consent may be subject to a civil cause of action instituted by a person injured by the publication and/or discipline under UF Regulation 4.040 Student Honor Code and Student Conduct Code.

Title IX: University of Florida has zero tolerance for sexual discrimination, harassment, assault/battery, dating violence, domestic violence, or stalking. Students are encouraged to report any experienced or witnessed occurrences to law enforcement and/or one of UF's Title IX Coordinators. Students can report incidents or learn more about their rights and options here. Or contact Student Conduct and Conflict Resolution at 202 Peabody Hall, 352-392-1261.

V. STUDENT EXPECTATIONS, ROLES, AND OPPORTUNITIES FOR INPUT

To ensure that we have a great semester, remember --
All transactions and relationships are enriched by courtesy:
Be considerate of one another during group work. All ideas have merit.
Be considerate of your classmates and the professor during class meetings by being attentive, power-off technology, and be prepared to fully participate in each class.

Academic & Personal Integrity: I expect and assume that you will be honest with me in all aspects of your conduct regarding our course. In return, I will do the same with you. By formally registering for coursework at the University of Florida, you are bound by the Honor Pledge which states:

> *"We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honesty and integrity by abiding by the Honor Code."* On all work submitted for credit at the University of Florida, the following pledge is either required or implied: *"On my honor, I have neither given nor received unauthorized aid in doing this assignment."*

The Honor Code specifies a number of behaviors that are in violation of this code and the possible sanctions. Furthermore, you are obligated to report any condition that facilitates academic misconduct to appropriate personnel. Violations of the Honor Code will not be tolerated. Violations will be reported to the Dean of Students Office for consideration of disciplinary action.

Faculty Course Evaluation Process: Students are expected to provide professional and respectful feedback on the quality of instruction in this course by completing course evaluations online via GatorEvals. Guidance on how to give feedback in a professional and respectful manner is available at https://gatorevals.aa.ufl.edu/students/. Students will be notified when the evaluation period opens, and can complete evaluations through the email they receive from GatorEvals, in their Canvas course menu under GatorEvals, or via https://ufl.bluera.com/ufl/. Summaries of course evaluation results are available to students at https://gatorevals.aa.ufl.edu/public-results/.

VI. SUPPORT SERVICES

Accommodations for Students with Disabilities or Different Abilities: The Americans with Disabilities Act (ADA) is a federal anti-discrimination statute that provides comprehensive civil rights protections for persons with disabilities. Among other things, it requires that all students with documented disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities. If you have a disability (or different-ability) that affects your learning, please reach out to the Disabilities Resource Center (DRC). And then share your accommodation letter with your instructor as quickly as possible to ensure you have access for the full semester.

If you did not register formally, but you know you have different learning, behavioral, or other needs that may affect your performance in the course, tell me and I will help you.

Counseling and Student Health
Students sometimes experience stress from academic expectations and/or personal and interpersonal issues that may interfere with their academic performance. If you find yourself facing issues that have the potential to, or are already, negatively affecting your coursework, please talk with an instructor and/or seek help through University resources available to you.

- Counseling and Wellness Center: Individual counseling, group counseling, and online resources are available to UF students at no charge. Also psychological assessment, intervention, and assistance for math and test anxiety. Visit the website or call 352-392-1575. If you are having a crisis, you can call anytime and ank to speak to the counselor on call.
- GatorWell Health Promotion services: GatorWell provides health-related resources, information, and individual services to students. Recommended services: Wellness Coaching for Academic Success (virtual appointments available).
- The Student Health Care Center , 352-392-0627, at Shands is a satellite clinic of the main Student Health Care Center located on Fletcher Drive on campus. Student Health at Shands offers a variety of clinical services. The clinic is located on the second floor of the Dental Tower in the Health Science Center.
- UMatter, We Care: Available for students who are experiencing personal life disruptions that may affect their academics. UMatter can help you identify resources and communicate with instructors on your behalf. 352-294-CARE (2273), umatter@ufl.edu
- University Police Department: Visit their website or call 352-392-1111 (or 9-1-1 for emergencies).
- Alachua County Crisis Center: Visit the website or call the hotline - 352-264-6789
- Meridian Behavioral Healthcare, 352-374-5600
