Process Syllabus

What happens next?
Our AI tool will analyze your syllabus for integration opportunities, map competencies, and apply guardrails to ensure recommendations align with ASPPH standards.

Analysis Steps

1. **Parse Content**
   Extract objectives & topics
2. **Map Competencies**
   Align with CEPH competencies and other frameworks
3. **Generate Recommendations**
   AI integration suggestions

Quality Guardrails
All recommendations are validated against ASPPH standards and guardrails.

Competency Mapping Insights

ASPPH Competency Alignment for "[Syllabus Title]"

Refine Analysis *Save Progress* *Proceed to Review*

Overall Coverage	Foundational Competencies	Concentration Competencies	Gaps Identified
00%	**00/00** mapped	**00/00** mapped	**0** competencies missing

Competency Coverage Matrix
Cite: ASPPH Competency Framework v0.0

Foundational Competencies
F01 F02 F03 F04 F05 F06 F07 F08 F09 F10 F11 F12

Concentration Competencies
C01 C02 C03 C04 C05 C06 C07 C08

Legend: ■ High ▨ Medium □ Low ☐ Not Covered

Competency Details

F01 — [Competency Description] High Validated

Syllabus Sections	Alignment Strength	Framework Citation
Section 0.0, Section 0.0	High — strong direct alignment	ASPPH v0.0, Domain 0

AI Suggestion
[Placeholder recommendation text for strengthening this competency area]

F04 — [Competency Description] Low Needs Review

C02 — [Competency Description] Medium Validated

Gaps Analysis

○ **F11 — [Competency Description]**
Not covered in current syllabus. Consider adding to Section 0.

○ **C05 — [Competency Description]**
Not covered. Recommend integration with module 0.
